

## MATTIX MUSIC STUDIO

### What to Expect in the Virtual Recital

**Student's Name:**

Please join the meeting under the recitalist's name(s) so we all know who is who in your video frame. If you join under a different name, you can click on Participants, your video frame, then More, and select rename.

**Muting:**

Remain muted until it is your student's turn to perform. When it's your turn, unmute yourself and go for it!

**Sound Settings:**

We want to sound the best we can, so use the settings from the graphic...

**Speaker View vs. Gallery View:**

In the beginning and end of the recital, we recommend trying Gallery View so you can see all your friends. Once the recital begins, switch to Speaker View to focus on the performer.

**Program Order:**

The host teacher will announce who is going next so we have one student performing and one ready to go. The program will be sent out ahead of time and also attached in our meeting. Families with more than one student will perform all their kids back-to-back. In the event of technology problems, we will skip you and come back at the end.

**Performing:**

Students should practice their "hello bow" performance, then "thank you bow," just like we usually do. Piano parents, position the camera so you don't have to move it for the bows and playing at the piano.

**Chat & Reactions:**

Please feel free to use the Chat box or icons to encourage your fellow performers! It's really fun to read comments and see high fives on your screens.

## Zoom Tips

for music classes

- For best audio, use the biggest device possible - a laptop or TV are best
- Audio Settings: Uncheck "Automatically adjust microphone volume"
- Advanced Settings: Check "Enable Original Sound from microphone"
- Advanced Settings: Disable "Suppress background/intermittent noise"
